I am a **hardworking**, **creative**, and **motivated** student at Boston University (sophomore, graduating 2025), pursuing a bachelor's degree in Computer Engineering with a minor in Computer Science.

Specialized Skills

Programming Languages: Java, Python, MATLAB, C, WebDev Languages (HTML, CSS), Arduino IDE

Technical Skills: computer hardware design (using Verilog), basic electrical circuit analysis, PCB circuits, Command Line, product design process, CAD (AutoDesk and OnShape), Microsoft and Google Products

Other: proficient in English and French, advanced mathematics skills (Differential Equations. Multivariable Calculus, AP Calculus BC), leadership (model UN, FIRST Robotics Team captain)

Academics

- **Boston University, Boston, MA** 2021-Present
  - Computer Engineering, College of Engineering, Class of 2025
  - Minoring in Computer Science
  - **GPA: 3.97 / 4.00**
  - Engineer Dean's List: Fall 2021, Spring 2022
  - Relevant Courses: Introduction to Logic Design (EC311), Engineering Design (EK210), Computer Systems (CS210), Introduction to Software Engineering (EC327)
- **Avon High School, Avon, CT** 2017-2021
  - **Weighted GPA: 4.7**
  - Relevant Courses: AP Biology, AP Physics C, AP Calculus BC, AP Computer Science A
  - Quarterly Highest Honor Roll 2017-2021
  - National Honors Society Member, 2020-2021
- **Awards and Distinctions:**
  - National Merit Finalist 2020
  - AP Scholar with Distinction 2020

Experience

- **Mechanical/Computer Engineering Summer Project** Summer 2022
  - mentorship from Prof. Kenn Sebesta of BU Engineering
  - designed and implemented a CNC base for a sandboard, based off of a design by V1Engineering found here: https://docs.v1engineering.com/zenxy/
  - learned about esp32 programming (using Arduino IDE), basic circuitry, motor controls
- **Jackson Laboratories Internship** 2020-2021
  - Academic Year Fellowship under Dr. Feyza Yılmaz
    - Analyzing variation in the human genome and its relation to certain diseases in previously unstudied regions
    - Used command line and basic bash scripting to access genome data
- **CityCo Convenience, Boston, MA** Summer 2020
  - improved communication skills, customer service, POS, and teamwork/collaboration
